

Board Action Request

SUBJECT: Station #1 Replacement

DATE: December 18, 2019

FROM: Cheryl Horvath, Fire Chief

Background:

Staff will continue discussion with the fire board regarding replacement of Station #1. At the September board meeting, staff presented the fire board with general information regarding fire stations and a list of deficiencies at the current station (attached to this memo). At this meeting, WSM Architects will present information to the fire board regarding the current status of Station #1 facilities as a result of a station tour they conducted this year. Additionally, WSM will present programming and a conceptual design for a new station that better suits the needs of the administrative staff and firefighters stationed at the Tubac facility.

Fiscal Impact:

Information Only

Alternate Option:

Provide staff with additional direction

Legal Review: N/A

Staff Recommendation:
