Chief Horvath,

Thank you for handling the SCVCC meeting so well this morning. I know what is it like to have move, thought and action questioned and you handled all questions with tact and professionalism. You have your bases covered on the new fire station. We definitely need it. We also need to keep our firefighters safe and comfortable so they can be there for us when we need them. We're lucky to have you as our Chief. Keep up the great work!

Nancy Sleath
